Qualifications

F-GAS ACCREDITATION OR QUALIFICATION REQUIRED?

Contact our Sales & Technical Department to discuss the options below:

OPTION 1: (Basic Qualification no expiry date)

- IMI AL Level 3 Award in Automotive Refrigerant handling.
- (EC842-2006) (QCF) QCA ID no: 500/6771/0 gained by successfully completing 1 practical assessment and paper workbook (30 multi-choice questions / 45 mins) knowledge test.
- Assessment time on site: 1½-2 hours.

Cost: £ .00 + VAT

OPTION 2: (Master Technician Accreditation Status renewable every 3 years)

- ATA accreditation: IMIA/AC/1
- Automotive Refrigerant handling gained by successfully completing 2 practical assessments and online knowledge tests. (30 multi-choice questions / 45 mins).
- Successful technicians will be issued with a photo ID card, valid for three years, and entered onto the ATA Register.
- Assessment time on site: 3½ hours.
- Preferred route for Franchised Dealer Technicians.
- Working to Vehicle Manufacturers' individual standards.

Cost: £ .00 + VAT

The above options provide you with minimal lost workshop production time, no travel or overnight accommodation expenses.

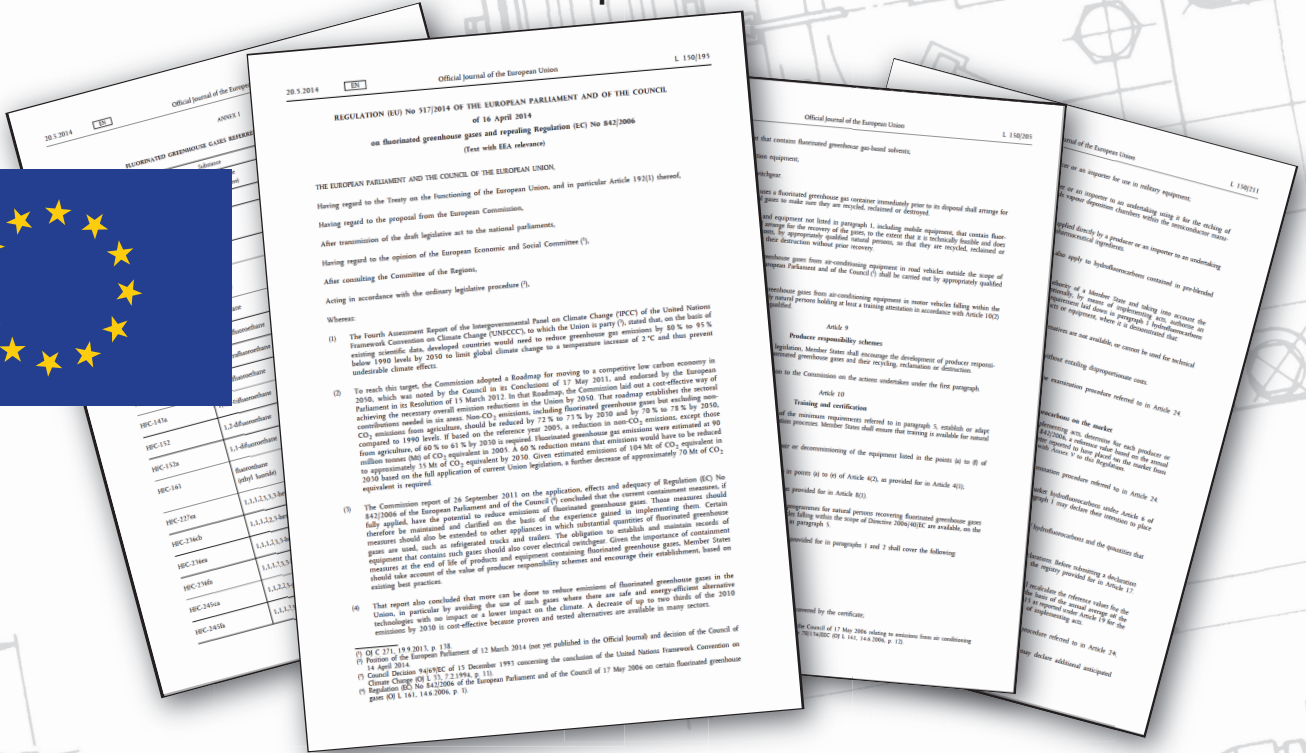

* The assessment time is based on a Technician with a minimum 3-months air conditioning service experience.

WHAT SCREENING AND RECORD KEEPING IS REQUIRED?

REGULATION (EU) No 517/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 April 2014

EASY STEPS...

Appendix: Example Letter of Assurance
Letter of Assurance related to purchase of fluorinated greenhouse gases (F-Gases)

Customer details:

Company Name _____
 Address _____
 Post Code _____ Telephone Number _____ Mobile Number _____
 E-mail Address _____
 Name _____
 Role of authorised signatory _____
 Customer account number _____

Branches/Locations related to this letter are listed in Appendix 2

This Letter of Assurance is provided by [Company Name] to confirm that we are permitted to purchase bulk F-Gases under the rules specified in the EU F-Gas Regulation 517/2014.

[Company Name] is aware of the requirements of the EU F-Gas Regulation, which has the aim of minimising emissions of F-Gases into the EU. In particular we are aware that the release is not technically necessary for the intended use.

- The intentional release of F-Gases is prohibited where the release is not technically necessary for the intended use.
- Operators of equipment that contains F-Gases shall take precautions to prevent the unintentional release ("leakage") of those gases and to take all measures which are technically and economically feasible to minimise leakage of fluorinated greenhouse gases.
- Undertakings carrying out the installation, servicing, maintenance, repair or decommissioning of stationary refrigeration, air-conditioning, heat pumps and fire protection systems require F-Gas certification and shall take precautionary measures to prevent leakage of F-Gases.
- F-Gases can only be sold to undertakings with the appropriate F-Gas certification. The intended use of the F-Gases that [Company Name] wish to purchase is identified in Appendix 2.

Details of the relevant certification is given in Appendix 2. [Company Name] gives an assurance that the certification identified in Appendix 2 is valid for the intended use of F-Gases and that certificates or attestations are held by all staff that require them to carry out installation, servicing, maintenance or repair of equipment that contains F-Gases.
