

EC Block Exemption Regulation – Statement of Quality

Compressortech, as an industry leading Original Equipment Manufacturer (Remanufacturer) recognises that changes in the distribution of automotive components under the new block exemption regulation requires the component to be of equal quality and specification to those originally fitted by the vehicle manufacturer; ensuring that any component replaced should not invalidate the vehicle manufacturer's warranty. The following statement confirms that Compressortech remanufactured products are of the same quality and specification to those supplied as original equipment to vehicle manufacturers.

Statement according to BER 1400/2002, Art. 1 t), u)

Our products comply, especially, but not limited for the use in service and repair, with the specifications for components as outlined in Art. 1, § 1 t) or u) of the Block Exemption Regulation (EU) 1400/2002

Compressortech Limited, 66-102 Cherrywood Road, Bordesley Green, Birmingham, B9 4UD
